Fifty-seventh session
Item 58 of the provisional agenda*
Reduction of military budgets

Objective information on military matters, including transparency of military expenditures

Report of the Secretary-General**

Summary

The present report contains information received from Member States on their military expenditures for the latest fiscal year for which data are available. The Secretary-General has, to date, received reports from 68 Governments. The report also describes a number of activities in which the Secretariat was engaged to enhance familiarity with and encourage greater participation in the standardized instrument for reporting military expenditures.

I. Introduction

1. The General Assembly, in its resolution 56/14 of 29 November 2001, inter alia, called upon all Member States to report annually, by 30 April, to the Secretary-General their military expenditures for the latest fiscal year for which data are available, using, preferably and to the extent possible, the reporting instrument as recommended in its resolution 35/142 B of 12 December 1980 or, as appropriate, any other format developed in conjunction with similar reporting on military expenditures to other international or regional organizations, and, in the same context, encouraged Member States that have no information to submit nil returns.

2. By operative paragraphs 5 (b), (f) and (g) of its resolution 56/14, the General Assembly requested the Secretary-General, within available resources, to circulate annually the reports on military expenditures as received from Member States; to promote international and regional symposia and training seminars to explain the purpose of the United Nations system for the standardized reporting of military expenditures and to give relevant technical instructions; and to report on experiences gained during such symposia and training seminars.

3. On 31 January 2002, the Secretary-General sent a note verbale to Member States requesting them to submit their reports no later than 30 April 2002. The replies received are reproduced in section III below. Any additional replies received from Member States will be issued as addenda to the present report.

II. Action taken by the Secretariat

4. Pursuant to operative paragraph 5 (f) of resolution 56/14, and within existing resources, the Secretariat engaged in a number of activities to enhance familiarity with and encourage greater participation in the standardized instrument for reporting military expenditures.

5. The Department for Disarmament Affairs cooperated with the Governments of Canada, Germany, Japan and the Netherlands in the holding of two subregional workshops on transparency in armaments devoted specifically to the Register of Conventional Arms and the instrument for reporting military expenditures. These workshops were held in Accra, Ghana, on 26 and 27 March 2002, covering the member States of the Economic Community of West African States, and in Windhoek, Namibia, on 19 and 20 June 2002, covering the member States of the Southern African Development Community.

6. In addition, the Department for Disarmament Affairs participated in a meeting of the Committee on Hemispheric Security of the Organization of American States in Washington, D.C., on 26 April 2002, which was partly devoted to the United Nations instrument for reporting military expenditures. The Department also participated in an intergovernmental meeting organized by the Economic Commission for Latin America and the Caribbean, held in Santiago on 29 and 30 November 2001, on a standardized methodology for comparing defence spending and on its application in Argentina and Chile. At that meeting, the Department made a presentation on the United Nations arms transparency instruments, including the instrument for reporting military expenditures. In addition, the Department for Disarmament Affairs organized an informal meeting of delegates at United Nations Headquarters on 18 October 2001, at which it provided an update on the latest

submissions by Member States to the United Nations instrument for reporting military expenditures and discussed related matters, including the holding of workshops and other efforts by the Secretariat, in cooperation with interested Governments, to encourage greater participation in this instrument.

III. Replies received from Governments

Explanatory note

7. To date, the Secretary-General has received reports from 68 Governments. Any additional replies received from Governments will be issued as addenda to the present report. In most cases, Governments have reported the figures in the tables presented below on the basis of the standardized instrument for international reporting of military expenditures. For analytical purposes, the information on military expenditures received has been computerized, with minor adjustments, to conform to standard statistical practices.

8. The originals of the replies from States are available through the Department for Disarmament Affairs at Headquarters.

General Notes:

1. Amounts reported in this return have been rounded to the nearest 1,000 Australian Dollars. Totals are the sum of unrounded amounts.
2. Resource Cost figures based on Defence Annual Report 2000-2001 Financial Statements. Figures reported are accrual based.
3. Military assistance (including UN Peace Keeping) is funded from the Service budgets, the Defence Cooperation Program (DC 00-01 is 60,460) and, where necessary, additional Government funding. Total military assistance cannot be identified as a separate item.

-- Not Applicable

--- Not Available

* Includes Reserves.

** Artillery and Ammunition are considered inventory and are included in Material for Current Use.

*** Includes miscellaneous plant, property and equipment, software and intangibles.

**** Comprises Land 11,165 and Buildings 289,125. Further break down is unavailable.

***** Includes basic and applied research where applicable, separate figures not available.

Part II[1]

1. In order to approximate the opportunity costs of using conscripts in the military sector, the following information is requested:

(a) The average civilian wage rate that the conscripts would have been likely to obtain during the reporting year if they had not been occupied in the military sector.

Answer: 641 United States dollars (minimum wage and complementary remunerations).

If such an estimate is not available, respondents are requested to suggest an average civilian wage rate that may be readily available and that the respondents believe might serve as a reasonable measure of opportunity costs.

(b) The number of man-years devoted by conscripts to military service during the reporting year concerned.

Answer: 18,000 man-years.

2. With reference to point (d) of the specific guidelines, respondents are requested to give below the total amount of military assistance received from abroad during the reporting year. The amount should be given in the same denomination and currency as used in the matrix, preferably converted from foreign currencies to national currency at average annual market or par value exchange rate as reported by the International Monetary Fund.

Answer: No foreign military assistance.

3. With reference to points (n) and (o) of Part I above, the requested information should be reported here in the same value terms as used in the matrix. It is requested that total expenditures, at least, and preferably detailed by type of force group as in columns 1 to 12 of the matrix, be reported for the following items:

Depletion of ammunition:

Sales from the military sector of:

(a) Land;

(b) Real estate other than land;

(c) Equipment;

(d) Services;

(e) Other.

4. Respondents are requested to submit information as to whether statistics of the following kinds would be readily available for the reporting year.

[1] See A/49/190.

Answer	*Available*	*Not available*
Price index of specific relevance to the military sector	X	
Exports of military equipment		X
Such exports divided by:		
(i) Countries		X
(ii) Regions		X
Imports of military equipment		X
Such imports divided by:		
(i) Countries		X
(ii) Regions		X

5. If a regularly published exchange rate is unavailable, or considered unsuitable for converting military expenditures, respondents are requested to comment on other possible ways for comparing the military expenditures of the responding country with those of other countries.

El Salvador

[Original: Spanish]
[26 April 2002]

Instrument for standardized international reporting of military expenditures

(Actual outlays, current prices)

Country: El Salvador Fiscal year: 2002

National currency and unit of measure:

(The unit of measure should not exceed one ten thousandth of the total military expenditures.)

The submission is a copy of the budget of the Branch of National Defence, which is based on the national format. That document, "Official paper of El Salvador, vol. 353, No. 242, dated 21 December 2001", is available through the Department for Disarmament Affairs.

* Expenditures include 8,754 million euros for civil and military pensions.

Explanatory note on the presentation of the French military budget

The figures provided concern the French military budget for 2002, excluding pensions, using a unit of currency and nomenclature requested by the United Nations.

The following comments are in order:

(a) The "strategic forces" heading covers allocations for nuclear deterrence;

(b) The budget for the *gendarmerie* was covered under the heading of "paramilitary forces";

(c) The "military assistance" and "civil defence" headings are not applicable: the former, because the elements needed are not provided in unclassified budget documents, while the latter does not come under the Ministry of Defence;

(d) Two types of figures are required to respond to part II of the United Nations questionnaire:

- Questions 1, 2 and 3 concern the average civilian wage for the reporting year, military assistance received from abroad, the depletion of stocks of ammunition as well as sales of land, equipment or services. These figures are not available.
- Questions 4 and 5 concern imports and exports of military equipment as well as the proposed methods for comparing French military expenditures with those of other countries. This information is classified.

Explanatory notes:

1.1 Personnel: Excludes service pensions.

1.2.1 Materials for current use: This item comprises fuel, oil and lubricants, communal messing and procurement of replacement clothing, medicines, and bandages.

1.2.3 Purchased services:

a) This item includes postage, cargo and transport costs, telecommunications charges, and general clerical expenses.

b) In accordance with the Federal Armed Forces accounting system, travel expenses are considered personnel costs and are included in items 1.1.1 through 1.1.3.

4. Total (1.+ 2.+ 3.): A breakdown of expenditures for United Nations peace-keeping by item is not available.

1. through 4. General remarks: Due to rounding, components may not sum to totals.

*Note #1 This year (2002) JAF will adopt the National Training Program; the number of trainees involved for the initial stage will be (10,000) individuals. All are expected to have secondary-level education.

*Note #2 JAF offers free education to about (6,000) students from rural and Badia inhabitants, and offers them in addition free lunch.

*Note #3 A total of (13) teams, each dispatched for about one month. Teams dispatched initially were composed of (10) medical doctors and (20) nurses and technicians. Later on they were composed of (3) medical doctors and (7) nurses and technicians; this was primarily due to the change in the nature of the task.

*Note #4 A 50 bed mobile field Hospital (JMFH) was deployed in North region of Afghanistan at Mazar Al Shareef Airfield to provide medical support and health care to military and civilian personnel in the area of mission (AOM).

*Note #5 JAF participates in funding Ophthalmic Bank & National Center for Diabetes and Endocrine annually by (152,000) JD.

Budgetary information

The General Budgetary Act for 2002 continues the economic stability policy for another year. With the complete elimination of the fiscal deficit in 2001, fiscal policy is aiming at new targets. A surplus of 0.2 per cent of gross domestic product (GDP) is anticipated, in keeping with the projections of the Stability Programme.

The Ministry of Defence is seeking to reconcile two objectives: financing the full professionalization of the armed forces and achieving a balanced budget. This requires a strenuous effort on the part of the Ministry of Defence.

The estimated figures for 2002 include 6,322,646.63 thousand euros in Ministry of Defence expenditures and an estimated 1,264,968.84 thousand euros to cover pensions for military and civilian personnel who were employed in the Defence Administration.

The budget for 2002 is equivalent to 1.11 per cent of GDP.

The percentage distribution to the various armed forces is as follows: central command (including pensions), 42.37 per cent; land forces, 30.07 per cent; naval forces, 12.97 per cent; air forces, 14.59 per cent.

A breakdown of the data for fiscal year 2001 and the defence budget for 2002 is annexed.

Thailand

[Original: English]
[31 May 2002]

Instrument for standardized international reporting of military expenditures

(Actual outlays, current prices)

Country: Thailand Fiscal year: 2002

National currency and unit of measure: millions of baht

(The unit of measure should not exceed one ten thousandth of the total military expenditures.)

The information on Thailand's military expenditures, as provided by the Ministry of Defense of Thailand, breaks down the expenditures into two main categories, namely, (1) operating cost and (2) procurement and construction. The figures are in Thai baht which has an exchange rate of approximately 42 bahts to 1 US dollar on 11 March 2002, the date the report was prepared. Furthermore, the fiscal year 2002 for Thailand begins on October 2001 and ends on 30 September 2002.

THAILAND (millions of baht[1]) **Fiscal year: 2002**
